

HyperFS Licensing Procedure

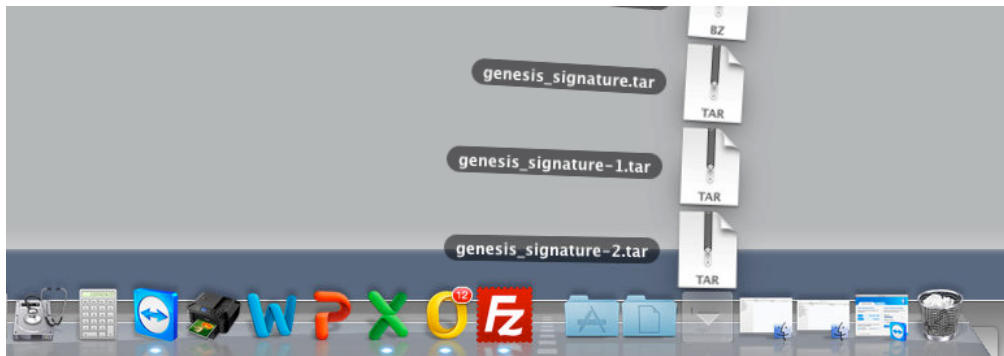

1. Login to your HyperFS Web GUI by typing the HyperFS server's IP address followed by :82, username is "fsadmin" and password is "password"
2. Click the license menu on the left pane.
3. Press the "Get Signature" button to get this MDS hardware ID or signature

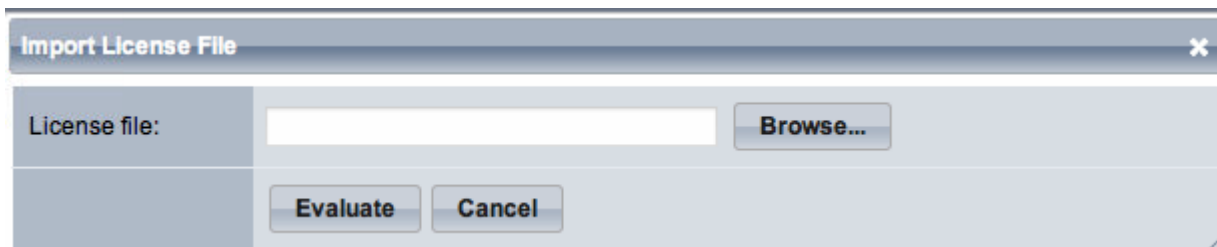

4. Then press the SAVE button to save it as a file

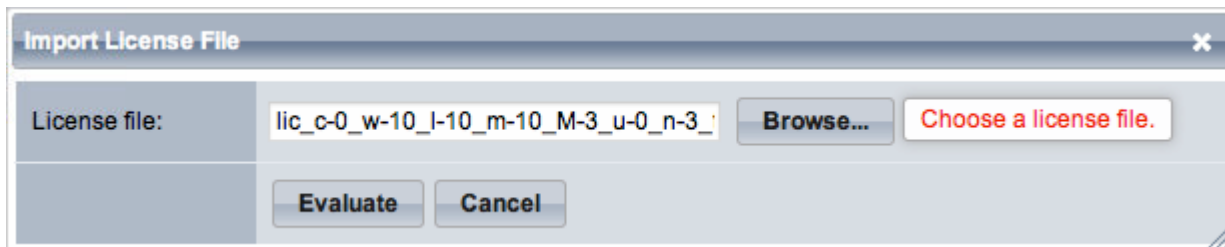

5. Save it to the computer, it will likely download to the downloads folder. After downloading you can hit the Cancel Button.

6. Please email the signature.tar to techsupport@scalelogicinc.com, a SLI tech will work with the license department to get your new license.
7. Your license response will be emailed back to you within two business days, please save it to a workstation that can connect to your HyperFS server.
8. In HyperFS MDS GUI, click on license again and click the IMPORT button

9. Then Browse for the LIC file that you saved to the local machine.

10. Then hit the Evaluate button

Import License File
