Storage solutions built for M&E

Scale logic inc.

Genesis Unlimited is a stand-alone shared storage appliance ideal for smaller creative work groups looking for a high-performance SAN/LAN without the infrastructure hassle.

SYNERGY is a single appliance consisting of shared storage and an embedded application server that can bring up to 192TB of storage with a choice of installed MAM, PAM, Transcode or other applications common in the broadcast and video post production markets.

Genesis IAP is a powerful server platform designed for the installation of Scale-Out NAS, MAM, PAM, HyperFS, archive, or any number of other applications for media-centric workflows.

Genesis HyperMDC Is a purpose-built Scale-Out NAS and SAN metadata controller that supports open storage platforms for media and entertainment workflows.

Genesis NX is a low-cost NAS file server ideal for second tier storage with built-in snapshot and replication that could also be used as spinning disk archive.

Active Archive Is a object-based storage platform integrated with HyperFS file system that allows long-term data retention, global accessibility, and massive scalability for customers requiring the most secure repository available.

Powerful line of storage powered by HyperFS

Enterprise File System for SAN and Scale-Out NAS

HyperFS integrates high-performance SAN, Scale-Out NAS and data protection under one global namespace while powering a full line of application servers and multi-tiered storage.

Hyper FS™

The Scale-Out NAS module integrates with the HyperFS SAN application, and features simple GUI-based configuration and management tools. Scale-Out NAS is based on open architecture leveraging common protocols, thus presents block-level SAN storage as file-based storage workflows to LAN clients.

Media Storage Services

From small work groups to enterprise customers we provide custom options to extend warranties.

Post Waranty Support: We provide post warranty support for EMC/Isilon, NetApp, HDS, Cisco, Brocade, and others at 50% of the OEM's price. 24x7x4hr. support worldwide. Support terms as short as six months or as long as five years.

Keep Your Cluster Alive: Grow your storage with refurbished/certified nodes and full clusters from Isilon, NetApp, Hitachi, and more at 60-80% off OEM pricing.

Data Migration: We ensure your valuable data will be migrated safely to your new cluster with our pro services team of certified level III engineers.

Trade-ins/Take-outs: We accept trade ins on all major manufacturers. Turn that gear into cash and help fund your refresh. We also "straight-up buy" your surplus equipment, helping you extend ROI.
