Scale Logic, Inc., Teams Up with Mellanox Technologies to Deliver Next Generation Networking Capabilities For Media and Entertainment

Bloomington, MN – April, 10, 2017 – Scale Logic, Inc., a leading provider of RAID, SAN, NAS, storage servers, Scale-Out NAS, backup, archive and disaster recovery solutions and Mellanox Technologies, Ltd. (NASDAQ: MLNX), a leading supplier of high-performance, end-to-end smart interconnect solutions for data center servers and storage systems, today announced that they have teamed up to offer media companies the next generation of networking solutions.

Media centric workflows are more demanding than ever, where for example, video professionals need to manage challenges as varied as ingest formats, distribution, throughput and long-term preservation on a daily basis. To work with these challenges, there is a need for access to a robust and efficient file-based workflow with a tight integration of software and hardware; a solution tested and backed by workflow support specialists. The relationship between Scale Logic and Mellanox presents customers with exactly that — a central hub for the entire ecosystem with a scalable and robust networking solution. Mellanox 10/25/40/50/100GbE interconnect solutions provide the highest throughput and lowest latency for HD, 4K, and 8K workflows.

“The powerful combination of Scale Logic’s HyperFS and Scale-Out NAS with Mellanox’s high-speed networking offers media companies greater flexibility and control

than ever before,” said Darrin Chen, VP, World Wide Channel Sales, Mellanox Technologies. “We look forward to working with Scale Logic to provide customers with increased performance and reduced costs using Mellanox’s end to end Ethernet interconnect solutions.”

“Mellanox and Scale Logic have advanced the entry and integration of high speed 40Gbit and 100Gbit connectivity for media workflows through our respective ease of management tools.” commented Daryl Heinis, CTO of Scale Logic “Scale Logic has certified and integrated its Genesis platforms for Mellanox NICs, cabling, and Ethernet switches. This relationship strengthens our ability to provide a solid solution in Ethernet networking to our customers.”

About Scale Logic

Scale Logic is a storage-centric solutions company, servicing broadcast, OTT, streaming, and video production workflows. These solutions are designed specifically for customers requiring high-performance, highly reliable data storage and network infrastructure.

Scale Logic’s value to customers is demonstrated by the range of products and related services it offers, from entry-level and mid-tier storage solutions, to global enterprise platforms, including Scale-Out NAS, SAN, and archive. Scale Logic offers a complete suite of lifecycle management, workflow enhancements, solution design, installation, post-sales maintenance options, and system integration.

If you are at NAB 2017, come explore demos on our Genesis Unlimited SAN Appliance, HyperFS enterprise file system and post warranty support options for tier one OEMs like EMC, HDS, IBM and Brocade.

About Mellanox

Mellanox Technologies (NASDAQ: [MLNX](#)) is a leading supplier of end-to-end Ethernet and InfiniBand intelligent interconnect solutions and services for servers, storage, and hyper-converged infrastructure. Mellanox intelligent interconnect solutions increase data center efficiency by providing the highest throughput and lowest latency, delivering data faster to applications and unlocking system performance. Mellanox offers a choice of high performance solutions: network and multicore processors, network adapters, switches, cables, software and silicon, that accelerate application runtime and maximize business results for a wide range of markets including high performance computing, enterprise data centers, Web 2.0, cloud, storage, network security, telecom and financial services. More information is available at www.mellanox.com.
