

## DS RAIDs

### Enterprise Rack Mount RAIDs

- ✓ Single or dual controller
- ✓ 12, 16, 24, and 60 Bay options in 2, 3 and 4U footprints
- ✓ 0, 1(0+1), 3, 5, 6, 10, 30, 50, 60 RAID levels
- ✓ Plenty of JBOD expansion configurations scalable into the petabyte range
- ✓ iSCSI, Fibre Channel and Ethernet ready

#### High-density solid performance

The DS RAID systems give access to fast performance, convenient modular components, strong data integrity, friendly management, and extensive software bundles in one cohesive system.

Highly reliable storage solutions for unstructured data and for customers who want to improve their green footprint with reduced power consumption.

#### Reliable and cost-effective

Whether you are doing video surveillance, analyzing medical imaging data, editing the latest Hollywood movie, or creating your own Cloud, the DS will exceed your needs.
