Based on 10/25Gbit Ethernet  
Network Configuration

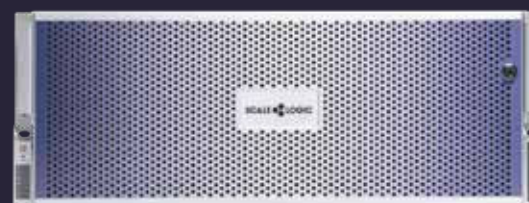

Our systems are optimized to seamlessly integrate with a wide range of MAMs, PAMs, DAMs, Transcode, and Archival software currently on the market. Furthermore, we ensure compatibility with the latest versions of the leading Non-Linear Editing (NLE) software and video production suites for a smoother editing and video production experience.

**Optional Addons/Upgrades:**  
HA, Storage Analytics,  
Data Management, Added Capacity,  
25/100 Network Switch, Remote Editing

10Gbit  
Snap & Replication
